## Full Stack Developer + Designer

**Skillset:** Frontend Development || Backend Development || API Integration || Code Optimization || Version Control || UI/UX Design ||

**Growth oriented Full Stack Developer** with experience in designing, developing, and implementing web and mobile applications. Proficient in front-end and back-end technologies, with a keen ability to translate business requirements into technical solutions. Adept at working in agile environments, collaborating with cross-functional teams, and delivering high-quality software solutions.

- **Full Stack Development:** Intellectual capacity to create full-stack modules with attention to code reusability and efficiency, translating prototypes and wireframes into app and UI components.
- **Software Development Lifecycle (SDLC):** Refined knowledge of complete Software Development Lifecycle [SDLC], including requirement analysis, documentation, coding, testing, and maintenance, contributing to the delivery of software / application solutions.
- **UI/UX Design:** Skilled in ideating, planning, and creating custom, user-focused UI and website designs, aligning with end-user needs.
- **Troubleshooting & Debugging:** Proficient in troubleshooting and debugging software / application defects with efficiency, contributing to the seamless functionality and user satisfaction of software applications.
- **Responsive Design:** Passionate about optimizing existing designs for responsive applications, emphasizing security, robustness, usability, and accessibility for improved user experience.
- **Technical Communication:** Capable of brainstorming solutions and communicating technical ideas effectively to stakeholders, clients, and cross-functional teams, ensuring comprehension and alignment of project objectives.

**Technical Skills:** React Js, Next Js, Typescript, Tailwind, Redux Toolkit, SQL, C++, MongoDB, Python, UI/UX

## EDUCATION

### B. Tech. (Information Technology)

Gautam Buddha University, Greater Noida ----- 2019 – 2023

**Courses:** Online Courses like Google UX Fundamentals, and Cohort 2.0 By Harkirat Singh

## WORK EXPERIENCE

### Application Development Associate @ Telus International || May 2024– Present

- **Key Contributions:**
  - ☑ **Frontend Revamp:** Led the migration of deprecated component libraries to their updated alternatives.
  - ☑ **Code Optimization:** Contributed to improving frontend performance and maintainability.
  - ☑ **Enhanced Leadership:** Took on increased responsibilities, including task delegation among team members..

### Application Development Trainee @ Telus International || Aug. 2023 – May 2024

- **Project Involvement:** Engaged in the early stages of project development, contributing to both frontend and backend design, and occasionally providing DevOps support.
- **Testing & QA:** Assisted the testing and QA teams with any queries or doubts, ensuring smooth project progression and quality assurance.
- **Increased Responsibilities:** Supported two senior developers, gradually assuming greater responsibilities as the workload increased, eventually taking on a significant role in development alongside one additional team member.
- **Key Contributions:**
  - ☑ **Node.js Upgrade:** Upgraded the application to the latest Node.js version, resolving previous configuration issues with libraries.
  - ☑ **DevOps Support:** Assisted the DevOps team in fixing minor configuration bugs in Docker.
  - ☑ **Live Communication Integration:** Integrated Socket.io into the application to enable live communication.
  - ☑ **Storage Migration:** Migrated media file storage from server storage to GCP Firebase storage, improving scalability and reliability.

### Projects Handled: Willow - MDS

- **Scope:** Developed an ERP app for internal company use, similar to Workday, utilizing React JS, Nest JS, and PgAdmin, hosted on GCP.
- **Responsibilities:** Managed frontend and backend flows, ensuring seamless integration and functionality. Assigned tasks to team members, enhancing collaboration and efficiency.
  - ☑ Acted as the liaison between the project manager, testing team, and development team, facilitating clear communication and timely issue resolution.
- **Achievements:** Received appreciation from the manager for exceptional performance. Granted increased control over system design decisions, reflecting trust and recognition of capabilities.

### Intern @ Telus International || Jun. 2022 – Sept. 2022

- Developed and maintained features for an e-commerce home decor website using C# and ASP.NET. Collaborated with senior developers to implement new functionalities. Assisted in debugging and optimizing code to enhance performance.

## ACADEMIC PROJECTS HANDLED

- Chat app with React and Firebase & Firestore
- Notepad app with Crud operations using MEVN stack

- Live news app using Next JS + Tailwind + Typescript
- Portfolio site using react
- Earthquake monitor app using API
- Pinterest UI Clone using Flutter
- SpaceX Launch details app using React Native and GraphQL
